

# Bored sitting at home... Time to cheer up! Game-based home therapy is here!

## A unique opportunity to design a library of exercises with researchers and try them out in your home!

The purpose of this study is to test the feasibility of an affordable home therapy device for individuals with Parkinson's Disease.

### Participants will be asked to:

- ❖ Participate in an interview to familiarize themselves with the device and design a library of fun exercises
- ❖ Fill out some questionnaires and use the device for 3 weeks at home

#### **Eligibility**:

- Less than or equal to 85 years
- Diagnosed with Parkinson's Disease
- ❖ No orthopedic injuries/surgeries

#### Location:

#### Rogue Physical Therapy & Wellness, Inc

18030 Magnolia St Fountain Valley, CA 92708 714-276-3992 OR

University of Southern California Department of Physical Therapy and Biokinesiology

1540 East Alcazar Street, Room #210 E Los Angeles, California, 90089
